

# 2008 Statistical Report on the use of Animals for Experimental and other Scientific purposes in Ireland.

## Licences and Certificates valid year ending 31 December 2008

Licences by category:

Without Certificate	26
Certificate A	691
Certificate B	607
Certificate C	26
Certificate D	1
Certificate E	27
Certificate EE	26
Certificate F	31
Certificate G	1

**Note:** If the licence is held alone without Certificate, the animal must be kept in anaesthesia throughout the whole of the experiment, and if the pain is likely to continue after the effect of the anaesthetic has ceased, or if any serious injury has been inflicted on the animal, it must be killed before the anaesthesia has passed off.

Certificate A	dispenses altogether from the obligation to use anaesthetic. It will be necessary in cases of simple inoculation calculated to give pain but not involving any surgical operation.
Certificate B	dispenses altogether from the obligation to kill the animal before the anaesthetic has passed off, it is necessary therefore whenever the initial operation is to be done under anaesthetics, but the animal is to be allowed to survive.
Certificate C	is necessary for experiments illustrating lectures.
Certificate D	is necessary where setting the animal free is necessary for the legitimate purposes of the experiment
Certificate E	is never held alone, but is necessary whenever an experiment is to be performed on a Dog or Cat under Certificate A.
Certificate EE	is never held alone, but is necessary whenever an experiment is to be performed on a Dog or Cat under Certificate B.
Certificate F	is necessary whenever an experiment is to be performed on a Horse, Ass or Mule.
Certificate G	is necessary where an experiment may require the animal to experience severe pain that is likely to be prolonged.
